- ✓ *We base all our work on our Quality Management System.*
- ✓ *Independence, impartiality, realistic approach to decision-making, openness, confidentiality and all these principles are among the basic principles of our company, which is an expert in its field, in order to fulfill all these principles at the national and international quality level.*
- ✓ *We are responsible for our employees to work as professionals with sufficient technical knowledge, to have a share in the success of our company, to be participatory, creative, constantly improving themselves, satisfied with their work and feeling secure.*
- ✓ *We support our employees' participation in internal and external trainings in order to increase their technical competence.*
- ✓ *In ensuring impartiality, full compliance with the National and International conventions, agreements, regulations and communiqués mentioned in our Quality Management System and Quality Manual is taken as a basis.*
- ✓ *Our Quality Management System is based on a realistic approach. Approaches other than objective evidence in the verification process are not included in our Quality Management System.*
- ✓ *Our principle of openness ensures that our information and documents are accessible and appropriately explainable if necessary for our clients and responsible parties.*
- ✓ *With the idea that we can provide excellence with the thoughts and recommendations of our clients, collecting the opinions of the client side in the verification processes and creating an infrastructure open to development in the company policy with internal evaluations will ensure that our Quality Management System is up-to-date and active.*
- ✓ *We recognize internal and external training programs as essential for teaching the legal regulations and processes to our employees in the best way and to keep the information continuous and alive;it is our goal to improve the quality of the company with specially prepared training programs taking into account the special situation of each of our employees.*
- ✓ *The mechanisms to be established for the internal recommendations and complaints of the employees, taking their opinions and applying them to the company policy are other important factors that will increase the quality of the company. In this context, both the mental and physical comfort of the employees will be taken into account for obtaining employee opinions and a quality verification process.*
- ✓ *Providing quality service to our clients will also reveal our commitment to Standards, Regulations and Communiqués. Making a verification in accordance with the Standard, Regulation and Communiqués will ensure that legal responsibilities are fulfilled on both sides.*
- ✓ *Our Quality Management System is carried out in accordance with TS EN ISO 14064-1, TS EN ISO 14065, TS ISO 17029 standards and* ***the EU Commission Implementing Regulation (EU) 2025/2546, Commission Delegated Regulation (EU) 2025/2551*** *Regulations within the scope of CBAM, and we are committed to carrying out the necessary work for the continuous improvement of the Quality Management System.*
- ✓ *It is an integral part of our verification process to establish procedures related to the work we have done and will do within the scope of the Quality Management System, to keep these procedures up-to-date with internal audits, and to file and present them for the control of the relevant parties.*
- ✓ *To achieve all this, our main resource is our specialized personnel. With these resources,* ***we are confident that we will be successful with our teamwork and modern management system****, complying with the requirements of TS EN ISO 14066, TS EN ISO 14065, TS EN ISO 14064-1* ***and TS ISO 17029, taking*** *into account the EU Commission Implementing Regulation (EU) 2025/2546, Commission Delegated Regulation (EU) 2025/2551.*
